ARTIST SPOTLIGHT:
KEVIN DREW OF BROKEN SOCIAL SCENE
"The VOX guitar is a lovely instrument to play.
Its light weight creation allows you to dig into
the frets with very specific ease while freaking out
on stage. Its design comes with various pickup
options that range from hollowed out to full-bodied.
Its particular strength for me is when I mix a bit
of distortion from my amp...it's a very sweet dirt
that I have become addicted to..."

Case: Hardshell

VIRAGE II

(((www.voxvirage.com)))

THE LATEST CHAPTER IN THE LEGACY OF VOX GUITARS

In just two short years, the original series VOX Virage semi-hollow guitars have found their way into the hands and hearts of a diverse group of great players from many genres of music. From Chris Robinson with the Black Crowes to Tommy Shaw with Styx; from Peter Stroud with Sheryl Crow to Devon Bronson with Avril Lavigne, they have all found the warmth, versatility and tone of Virage guitars to be a worthy addition to their musical vocabularies.

Comfort and Confidence

The twin Tone bars™ are an integral part of the Virage II's body sculpting, providing a solid mounting platform for the bridge, while eliminating the traditional "block" under the bridge and pick-ups. This design also allows the top to vibrate freely for optimum clarity, offering the sweet, singing sustain of a semi-hollow design, as well as the focused attack and articulation of a solid body guitar. The reverse taper of the top naturally inhibits feedback and other artifacts. Whether you play sitting or standing, Virage II's ergonomic 3-D contour provides unparalleled balance and comfort. Comfort creates confidence. Confidence fuels inspiration.

Silent Running

The refined Virage II™ instruments add exciting new features to what makes Virage guitars great. Our exclusive new VOX CoAxe™ pickups, developed at the VOX G-Rok R&D shop in California, bring new levels of versatility and tonality to the Virage II models. Featured on both the Virage II SC and DC models, CoAxe pickups use new construction methods to passively create three distinct voices per pickup; each one a sparkling representation of classic Clean/Crunch/Lead sounds. Beyond providing the available sounds their own unique, rich character, an innovative

hum-cancelling scenario virtually eliminates hum and noise without reducing sparkling highs or disturbing the pickup's rich midrange and bass balance; truly a major sonic step forward.

A Bridge to the Future

Virage II calls on our advanced MaxConnect™ aluminum bridge to provide extended saddle travel and to deliver flawless intonation with any gauge string. The full contact shape and light weight combine to deliver thick rich tone with clear, singing harmonics. Each bridge stud is anchored in a separate solid wood block (Tone bar), allowing the high strings and bass strings to resonate fully without robbing each other of clarity or sustain. Strings slide in from under the back edge of the bridge to make changing strings a snap.

Uncompromising VOX Styling

Virage II is available in both Single Cutaway (SC) and Double Cutaway (DC) body styles. Numerous cosmetic extras enhance the Virage II. Virage II instruments feature a new fingerboard inlay, setting the guitars apart from the original Virage models. You'll notice the exquisite attention to detail in the guitar's finish, nut, and fret dressing that puts them in a league with the finest instruments available.

VOX SERIES 99 GUITARS

(((www.voxamps.com/guitars/series99)))

Distinguished by their exquisite quilted Maple tops, the semi-hollow Series 99 guitars are unique in the VOX line, yet share many components and design elements with the flagship VOX Virage II.

Unparalleled Playability

The remarkable body design features 3-D sculpting that wraps around you for superior comfort, sitting or standing. In addition, the reverse heel joint is deeply cut for free access to the upper frets. Large rectangular position markers adorn the fingerboard; dot position markers grace the side of the neck for fast reference. The bound Ebony fingerboard provides a smooth playing surface; the mahogany neck is rock-stable. Superior string handling and tuning stability is provided by the VOX Super Smooth tuners. The advanced MaxConnect™ aluminum bridge features extended saddle travel for flawless intonation with any gauge string. The full contact shape and light weight combine to deliver thick rich tone with clear, singing harmonics.

Vintage Voicing

To create the Series 99, the pickups have been re-voiced with a distinctly "vintage" vibe. Each of the new whisper-quiet CoAxe Vintage pickups contains a central sensing coil surrounded by a coaxial hum-canceling coil, allowing each pickup to offer a single coil, humbucking or soapbar tone. The result is a versatile assortment of unique and sophisticated tones. The passive analog tone circuitry offers extended control using the Master Volume and Master Tone knobs. Logically laid out and easy to use, the controls allow fast changes during performance, with plenty of variety to satisfy your tonal cravings.

Beautiful to Behold

Quilted Maple veneer tops and backs are intricately figured to reflect the beauty of the wood itself. The body is uniquely chambered, with a smooth double cutaway figure. Combined with the off-white binding, Ebony fingerboard, and dynamic inlay pattern, the Series 99 guitars are easy on the eyes, and the ears. Two deep finishes are offered; a traditional Sunburst, and a rich WineBurst.

Available Finishes:

- ☐ SUNBURST (Quilted Maple over Maple-ply; Solid Mahogany rim/core)
- ☐ WINEBURST (Quilted Maple over Maple-ply; Solid Mahogany rim/core)

SSC/SDC-55

SOLID-BODY GUITARS

Both the Single Cutaway (SSC) and Double Cutaway (SDC) solid-body guitars embody the same design philosophy as the original VOX Virage. Combining advanced production methods with hands-on craftsmanship results in a superior instrument that is remarkably playable, yet versatile enough to provide you with your own personal voice.

3-D Body Contouring

State-of-the-art carving methods provide the 55 solid-body instruments with a contoured body that fits naturally and comfortably, whether you prefer to play sitting or standing. The top surface is also perfectly carved, resulting in additional playing comfort and a distinguished look. The set neck features an inverse heel design and deep cut that offers unobstructed access to the upper frets. The distinctive headstock and the bound fingerboard are inlaid with the winged “S” shape mother-of-pearl.

Superior String Handling

The advanced MaxConnect™ aluminum bridge features extended saddle travel for flawless intonation with any-gauge string. The full contact shape and light weight combine to deliver thick, rich tone with clear, singing harmonics. Strings slide in from under the back edge of the bridge to make changing strings a snap. Our VOX Super Smooth tuners offer enhanced tuning stability, so you can play with confidence. The mahogany necks are finished with rosewood fingerboards.

Rich, Refined Tone

Each of the three pickup elements in our new CoAxe pickups delivers a unique and sophisticated tone, yet each one remains whisper-quiet. By combining different pickups with different settings, the 55 solid-body guitars offer a deep range of tonal choices. The passive analog tone circuitry offers both a Master Volume and a Master Tone control to refine your individual sound. The controls are easy to use and logically laid out, allowing fast changes during performance.

SSC/SDC-55 SS

SEMI-SOLID-BODY GUITARS

The Series 55 Semi-Solid (SS) guitars offer an innovative design based on our unique weight-saving and tone-enhancing internal chambers. Both the Single Cutaway (SSC-55 SS) and Double Cutaway (SDC-55 SS) Semi-Solid guitars embody the VOX design philosophy of combining advanced modern production methods with irreplaceable hands-on craftsmanship. Available exclusively in a dramatic Transparent Black finish, which provides the Series 55 SS models with a unique identity. The finish has been carefully applied to leave a revealed edge of natural Maple around the top, providing a dramatic “binding” appearance. The premium ebony fingerboards are inlaid with the authentic abalone dot position markers.

SERIES 33

SERIES 33 / SERIES 22

SOLID-BODY GUITARS

Employing many of the same distinguished VOX components, the Series 33/Series 22 instruments represent a dramatic breakthrough in price for guitars of this quality. The VOX Series 33 solid-body guitars come in both Single Cutaway (SSC) and Double Cutaway (SDC) styles; the Series 22 solid-body guitars are available exclusively as Double Cutaway models.

Carved Construction

The signature VOX 3-D contoured body ensures impeccable comfort and fatigue-free playing, offering a natural fit either seated or standing. Elegantly top surfaces result in a distinguished look and a comfortable playing position. Easy access to the upper frets is provided by the deeply cut inverse heel joint. Position dot markers are placed both on the fingerboard and on the side of the neck for fast reference. The Series 22 instruments feature a new SBE™ (Strap Button Extension) system for improved balance.

Quality Components

The Series 33/Series 22 guitars use the same MaxConnect™ aluminum bridge as the Virage, offering extended saddle travel for flawless intonation with any-gauge string. Strings slide in from under the back edge of the bridge to make changing strings a snap. The full contact shape and light weight combine to deliver thick, rich tone with clear, singing harmonics. Our VOX Super Smooth tuners offer the Series 33/Series 22 guitars enhanced tuning stability, so you can play with confidence. The mahogany necks are topped with rosewood fingerboards.

Uncompromised Tone

Dual pickups offering two tone settings provide the Series 33/Series 22 guitars with a deep range of tonal choices. The passive analog tone circuitry offers both a Master Volume and a Master Tone control to refine your individual sound. Logically laid out and easy to use, the controls allow fast changes during performance. Series 33 instruments are equipped with VOX CoAxe™ pickups featuring two pickup elements; each delivers a unique and sophisticated tone, yet each one remains whisper-quiet. Our new XLM™ (Xtra Loud Mini) humbuckers are used on all Series 22 models; choose a tight, punchy lead tone or more open, chordal voice.

Neck Pickup: CoAxe
Case: Semi-Rigid Hardshell

HDC-77

SEMI-HOLLOW-BODY GUITAR

Featuring many of the same design cues and distinguished components as the esteemed VOX Virage, the sharp-horned HDC-77 offers an outstanding value for a quality instrument well worthy of the VOX name. Beautiful to look at, the HDC-77 is available in solid classic colours, or outfitted in a variety of semi-transparent finishes, set off by figured tops and backs.

Proud Pedigree

In addition to the unique body sculpting and design, the HDC-77 features the same inverse heel joint, deeply cut for free access to the upper frets, as the original Virage series guitar. The MaxConnect™ aluminum bridge and VOX Super Smooth tuners offer superior string handling, and offer tuning stability as well as a thick, rich tone with clear, singing harmonics. Large rectangular position markers adorn the fingerboard; dot position markers grace the side of the neck for fast reference. The rosewood fingerboard provides a comfortable playing surface; the mahogany neck is rock-stable.

Wide Sonic Palette

Our whisper-quiet CoAxe pickups feature three distinct tones, each derived from a different pickup element. The result is a versatile assortment of unique and sophisticated tones. The passive analog tone circuitry offers extended control using the Master Volume and Master Tone knobs. Logically laid out and easy to use, the controls allow fast changes during performance. The HDC-77 offers a deep range of tonal choices to satisfy your tonal cravings.

APACHE

TRAVEL GUITARS & BASSES

The Apache Series brings back to two of the most unique body styles from the VOX back catalog: the Teardrop-shape Apache I, and the Phantom-style Apache II.

In addition to the iconic body designs that only VOX can provide, these tricked-out travel instruments combine cool, retro looks to satisfy the enthusiast with play-anywhere convenience. These playful and spirited instruments are a highly attractive choice for students and entry-level players, as well as for musicians seeking easy playing instruments at home or on tour. The Apache Series will of course be of interest to collectors of unique and exotic guitars and basses.

Ideal for on-the-go practice, each Apache Series instrument is equipped with a built-in amplifier and a pair of three-inch speakers. A full complement of Gain, Tone, and Master Volume control provides access to a broad range of tones. The Apache guitars offer a Clean/Overdrive switch; the Apache Basses provide a Normal/Bright Switch. Power comes from six AA Batteries, yielding roughly 26 hours of playing time.

Unique to the Apache Series are 66 onboard rhythm patterns, divided into musical genres for fast selection. Choosing one of the ten genres provides access to standard styles including 8-beat, 16-bit, and blues; to other styles such as funk, reggae, and complex patterns in unusual time signatures. Each genre contains six rhythm patterns and one extended song pattern that is several measures long, for a total of 66 ready-to-play patterns. Tempo and Level knobs are provided, as well as a Start/Stop button. In addition to providing accompaniment as you play, these rhythm patters are ideal for rhythm training or for backstage warm-up before a concert. It's a great function for generating inspiration and adding power to your performance.

The Apache Series instruments feature basswood bodies, maple necks, and rosewood fingerboards. Each is equipped with one single-coil pickup and a set of sealed precision tuners. Using the headphone jack mutes the internal speakers. An Aux input allows jamming a long to an MP3 player, computer tracks, etc. A convenient E-String tuner is also built in to each instrument. Provided accessories include both a strap and a carry bag.
